FIRST TRYON SECURITIES, L.L.C.**Notes to Financial Statements**
Years ended December 31, 2007 and 2006**Note 1 - Nature of operations**

First Tryon Securities, L.L.C. (Company) is a broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA). The Company's purpose of operations is to engage as a broker-dealer on a fully disclosed basis in the purchase and sale of fixed income securities primarily with other brokers, dealers and financial institutions. The Company was approved by the National Association of Securities Dealers to initiate trading operations as of October 21, 1996.

First Tryon Securities, L.L.C. is a North Carolina limited liability company, organized on September 1, 1996 and currently operating under the fifth amended and restated operating agreement dated January 1, 2005. The Company shall continue until it is set to expire on December 31, 2046. Members are not ultimately liable for any debts, liabilities or obligations of the Company, losses of capital nor losses of profits solely for acting as an equity owner and not beyond the respective capital contributions of each member. Withdrawing members' ownership interests are transferable, with no management rights, upon the lapse of the term for the Company's option to purchase same ownership interests. Ownership interests are transferable in accordance with the terms of the operating agreement.

Note 2 - Summary of significant accounting policies**Cash equivalents**

For purposes of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Securities owned

Marketable securities consist of fixed income securities and are valued at quoted market values. If a quoted market value is not available, market value is determined using quoted market prices for similar investment securities. Security transactions and any related gains or losses are recognized on the trade date. Cost is determined by the average cost method for the purpose of computing realized gains or losses on investment securities. Changes in the fair value from one reporting period to the next (unrealized gains and losses) are recorded as trading revenue in the accompanying statements of income.

Property and equipment

Furniture, equipment, and leasehold improvements are carried at cost. Depreciation is charged to operations over the estimated useful lives of the assets using principally the 200% declining balance method for furniture and equipment and the straight line method for leasehold improvements. The costs of maintenance and repairs, which do not improve or extend the life of the respective asset, are expensed as incurred. The cost and accumulated depreciation and amortization of property are eliminated from the accounts upon disposal, and any resulting gain or loss is included in the determination of net income.

FIRST TRYON SECURITIES, L.L.C.

Notes to Financial Statements
December 31, 2007 and 2006

Note 2 - Summary of significant accounting policies (continued)**Use of estimates in the preparation of financial statements**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income taxes

Limited liability corporations are essentially taxed as partnerships, with the net income or loss flowing through to the members' individual income tax returns. Accordingly, no provision for income taxes is reflected on the Company's financial statements.

Allocations and distributions to Members

Allocation of income and losses and distributions of cash are made to the members in accordance with the terms of the operating agreement and amendments entered into by the members. The allocations are based on the members' ownership interests.

Reclassifications

Certain 2006 amounts have been reclassified, where appropriate, to correspond with the 2007 financial statement presentation.

Note 3 - Clearing broker and related receivable

The Company currently has a clearing agreement with Bear Stearns Securities Corp. ("Bear Stearns"), to clear all trade transactions. The Company is required to maintain a cash deposit of \$100,000 with Bear Stearns in accordance with the terms of the clearing agreement.

Accounts are maintained with Bear Stearns that are composed of funds to settle securities traded but not yet settled and the proceeds from all trade transactions. The funds in these accounts are available for the daily trading transactions initiated by the Company that are cleared through Bear Stearns. The accounts are also used by the Company to transfer funds to bank accounts for the administrative operations of the Company.

The Company has various margin accounts with Bear Stearns and has a net payable in these accounts as of December 31, 2007 and 2006 to Bear Stearns of \$16,641,937 and \$25,406,832, respectively. Securities owned by the Company are pledged as collateral for any outstanding payables, which accrue interest at a base variable rate determined as described in the clearing agreement. Interest expense on the margin accounts for the years ended December 31, 2007 and 2006 was \$1,372,479 and \$1,051,100, respectively. The amount of margin available to the Company is based on the requirements of the New York Stock Exchange. If the fair value of the securities margined decreases to the extent the amount of margin available is less than the calculated requirement, the Company would have to repay a portion of the margin loan. The amount of unused margin as of December 31, 2007 and 2006 was approximately \$3,545,392 and \$5,394,127, respectively.

Note 14 - Concentrations of credit risk and other business concentrations

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks and other financial institutions. In the event counterparties do not fulfill their obligations the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the security. The Company evaluates each counterparty's financial condition and creditworthiness before making a decision to conduct business with that counterparty and on an on-going periodic basis.

Additionally, the Company places its cash and cash equivalents on deposit with North Carolina financial institutions and with Bear Stearns. The balances at the financial institutions are insured by the Federal Deposit Insurance Corporation up to \$100,000. From time to time, the Company may have balances on deposit in excess of the FDIC insured limits. The balances with Bear Stearns are not insured, however Bear Stearns is a reputable, well-known entity and the Company considers the risk of loss for the deposits held at Bear Stearns to be remote.

Report on Internal Control Required by SEC Rule 17a-5

The Members
First Tryon Securities, L.L.C.
Charlotte, North Carolina

In planning and performing our audits of the financial statements of First Tryon Securities, L.L.C. for the years ended December 31, 2007 and 2006, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (the "Commission"), we have made a study of the practices and procedures followed by First Tryon Securities, L.L.C. including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g), in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making the quarterly securities examinations, counts, verifications and comparisons
2. Recording of differences required by Rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

Management is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that errors or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2007 and 2006, to meet the Commission's objectives.

This report is intended solely for the use of the Company's member-managers, the Securities and Exchange Commission, and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
